ASSEMBLYMAN DICK DONOVAN

Assemblyman Donovan To Seek Re-election

Assemblyman Richard J. Donovan, R-Chula Vista, announced from Sacramento today that he would seek re-election to his 77th Assembly District seat in the California Legislature. In a phone call to his District Office in National City, Donovan said, "I feel I can render the greatest service to the people of this district by continuing to represent them in Sacramento. They put their trust in me when they elected me in 1962. They now deserve the right, by ballot, to pass judgement and voice their confidence or displeasure at my actions in the Assembly."

Donovan's announcement put an end to speculation that he would seek the 37th Congressional District seat. La Mesa attorney, William Paulwetter, declared himself a candidate last week. Donovan said that his job in the State Assembly was as important as any political job in the land.

"The state relieves the people of a sizable chunk of tax money. They deserve a fulltime representative in Sacramento to keep an eye on their interests. I consider my job an obligation to the people who elected me, and I will not allow personal ambition to divert me from this obligation."

Donovan was elected in 1962 by more than 5,000 votes in a predominantly Democratic district. It was his first attempt at seeking public office. The 37 year old attorney is the first

candidate to declare his intention in the 77th District which encompasses most of the area south of San Diego's city limits to the Mexican border and loops east to include Lemon Grove, Spring Valley, and part of La Mesa. No opponent has come forward to challenge him in the primary election.

During his first term in the California Assembly, Donovan revealed himself to be a vigorous, dedicated legislator. He was appointed to the Transportation and Commerce Committee and was named its vice chairman. This committee hears all proposed legislation on highway and commerce matters, including the traffic laws incorporated in the Vehicle Code.

Donovan was also appointed to serve on the Criminal Procedures Committee, Revenue and Taxation, and Government Organization. His experience in legal matters and capability as a legislator led to his appointment to the Penal Code Revision Committee charged with reviewing and updating the Penal Code.

During the General Session, Donovan introduced legislation aimed at greater highway safety, curbing welfare abuses, and controlling narcotics. He succeeded in guiding about 80 per cent of his legislation through the two houses of the Legislature. He did his most effective work, however, in committee.

SHOE BOX — Two well-known local retail personalities have joined forces to bring a shoe store to Lemon Grove. The new firm, called Shoe Box, has opened at 7885 Broadway. Fitting shoes on one of the first customers last week is Margaret Goodger, store manager. Audrey Papenhaus, assistant manager looks on.

The store follows a red and white peppermint motif and handles all types of shoes from infants to women's tens and men's twelves in all widths.

The women said the store's policy is to sell top quality shoes at discount prices. Some of the brands stocked are Edwards, Stride-rite, Lazy Bones, Buster Brown, Red Goose, Cobblers, Weather Bird.

Mrs. Papenhaus has been identified with retail stores here for the past five years; Mrs. Goodger for nine years.

\$47,000 Fire Hits Skyline Church

Three Buildings Saved In Early Morning Blaze

A spectacular early morning blaze gutted the \$47,500 new addition to the Skyline Wesleyan Methodist church Wednesday. The building is at the east end of the church property at Skyline and Jamacha rd. in Lemon Grove.

The addition, the fourth in a series of expansion programs, and about 75 per cent complete, was nearly a total loss. Other church property, valued at \$175,000, was damaged only slightly.

"We understand (from the fire marshall) that we may be able to salvage most of the

foundation walls," William Hass, of 2575 Massachusetts ave., contractor on the 2100 square foot addition said. The addition, was to have housed the church's adult Sunday school class and facilities for transcribing programs for radio and television.

The Rev. Orval Butcher, pastor of the church, said the building was to have been ready for occupancy within a month. "We were running well ahead of schedule," he said.

Hass said the fire would delay the project "at least 90 days".

Starts At 1:26 a.m.

The fire was reported at 1:26 a.m. Wednesday. Units of the Lemon Grove Fire Department backed up by units from Spring Valley and San Diego had the fire under control at 2:05 a.m. 22 members of the Lemon Grove Fire Department battled the blaze.

The fire could be seen for miles. The church is on the hilltop of Jamacha rd. and Skyline and it created a blazing backdrop for the church's steeple and cross. Lemon Grove firemen, under assistant chief Fred Dixon, could give no reason for the blaze.

2 Named To Board Of C of C

Two directors were named to the Lemon Grove Chamber of Commerce's board Tuesday at the regular monthly meeting.

Patricia Hutchinson, operator of Patricia's Sportswear and Pat Grace, general manager of Spears Ford were elected to replace Jim Boyd and William Davies.

The Chamber will co-ordinate a master plan of community tree planting sponsored by the Lemon Grove Kiwanis club from funds to be provided by A.F. Sonka, a Lemon Grove early resident. Merle Weber was named Tree Plan Committee Chairman.

Lighting District Committee Chairman Jack Cummings said that the District Formation Commission would give an opinion later in the week on the feasibility of the San Altos lighting district. The district was originated in the chamber early last year. A change from a community-wide district to a smaller one brought the project within the control of the Formation District.

Chamber President S. Pernicano said a nominating committee will be chosen in time to present a slate of new officers at the next meeting. Chamber officers are seated mid-year.

Kiwanis To Push Incorporation

The Lemon Grove Kiwanis club voted Wednesday to endorse the incorporation movement by which Lemon Grove would become a sixth class city.

President Ken Conrad said San Pernicano has been named head of a committee to give help to proponents.

Petitions are being circulated throughout the community presently.

Sups Break Zoning On Tropico Drive

SAN DIEGO (CNS) — The County Board of Supervisors has voted three to one to allow a developer to build six houses instead of four near the end of Tropico dr on the south slope of Mt. Helix but the item is still in doubt.

Supervisor David Bird, who represents the area, voted against the majority and Supervisor Frank Gibson was not at the hearing last week and could not vote.

The planning staff must now check the petitions which were signed against the zone reclassification from E-1-A to R-1 (reducing lot sizes from half acre to 10,000 square foot) to see if four votes were necessary to pass the item. The request is

an appeal from the Planning Commission which recommended denial.

The company is Brock Construction and the board meeting was packed last week by local residents opposed to the enlargement of the number of houses. Most of the area residents have half acre or larger lots.

Bird said he objected to the development because it must use substandard Tropico dr. Supervisors Robert Cozens said he understood that another access would be developed.

If 20 per cent of the property owners in the area have signed against the request, the matter would be dead for the time being.

Former Lemon Grove Publisher Earns Union-Tribune Promotion

Carlyle Reed, former local newspaperman, has been promoted to the position of assistant to the publisher of the San Diego Union-Tribune.

The Union and Tribune are properties of the Copley Press. The announcement was made by James S. Copley Friday.

William Shea, publisher of the Union and Tribune, said that Reed would continue his position as consultant to the publisher along with his new duties. He will now be responsible to the publisher for editorial matters and public relations.

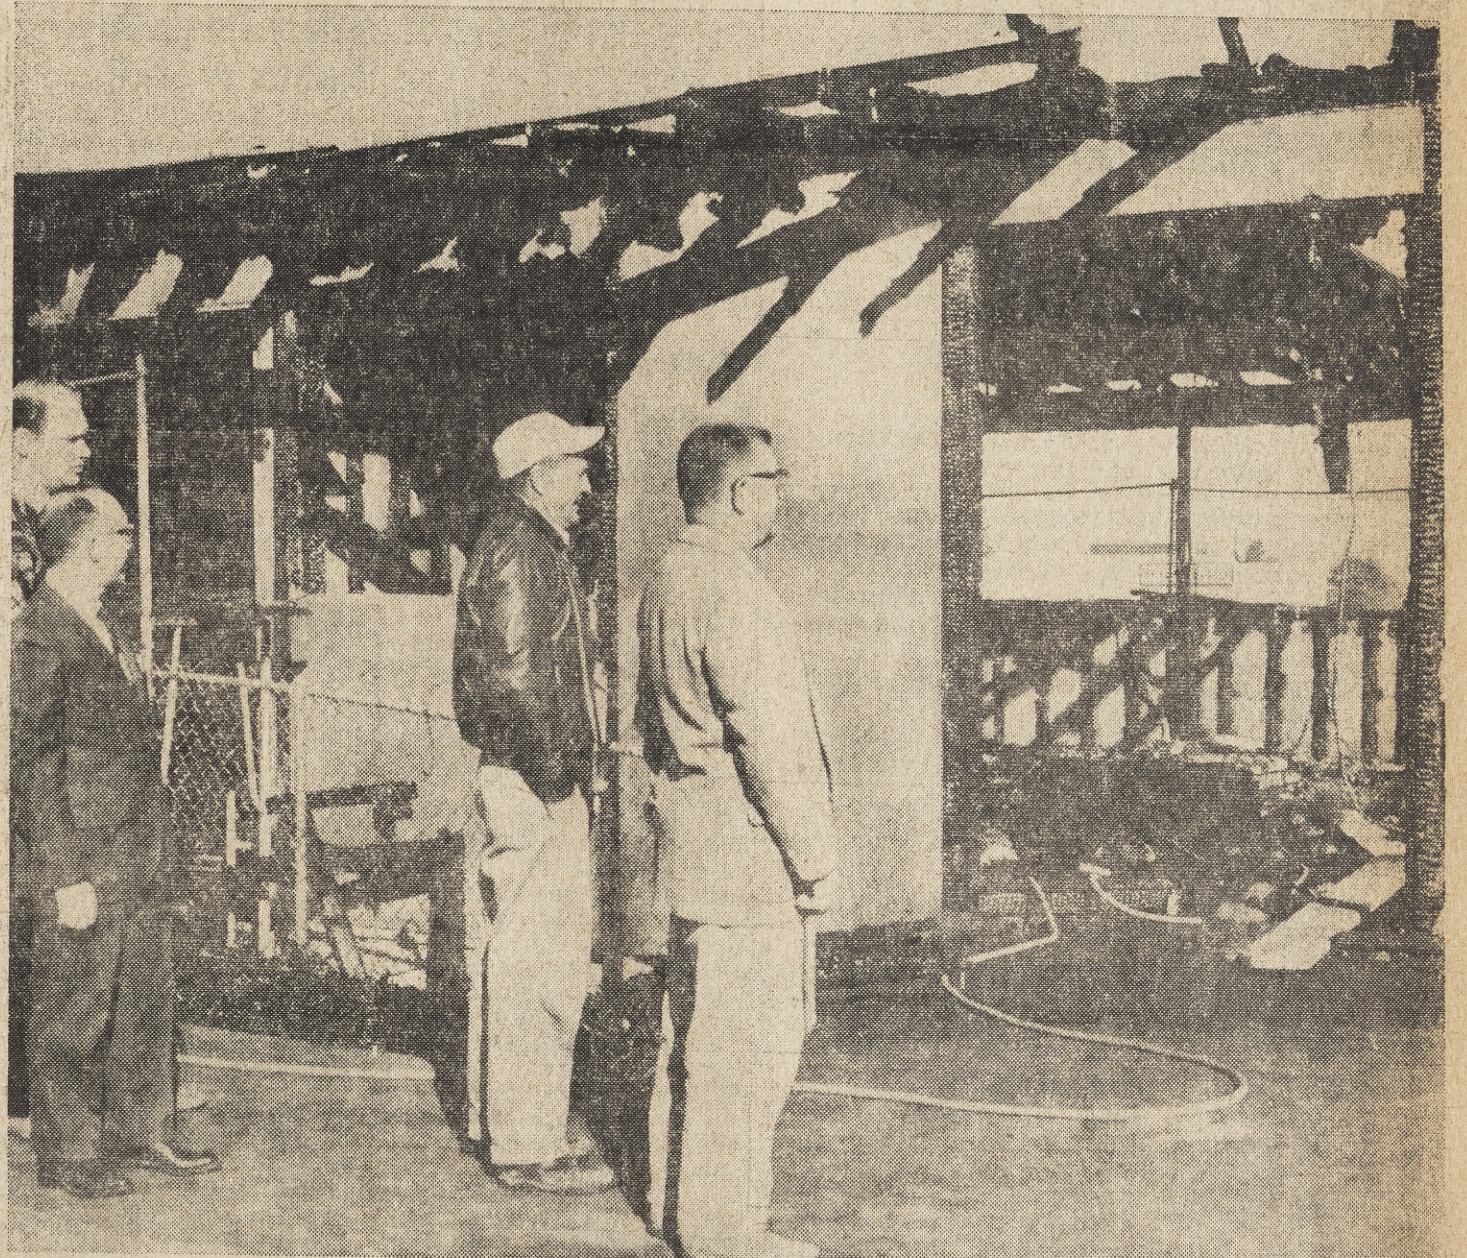

Reed, together with his father, the late Henry C. Reed, published the Lemon Grove News for several years following 1940. It was sold and eventually evolved into the Lemon Grove Review.

The publishing family also had newspapers in La Mesa and El Cajon. The La Mesa Scout

and the Valley News are still operating but under other ownership.

He served at public and legislative work after disposing of the La Mesa and El Cajon newspapers. He served four years on the staff of the state director of water resources in Sacramento.

In 1957 he joined the Union-Tribune Publishing Co. as publisher's representative. His first responsibility was the expansion of services throughout San Diego and Imperial Counties. He serves on the board of directors of the San Diego Chamber of Commerce, is first vice president of the San Diego County Traffic Safety Council and is active in the San Diego Symphony Association and many other civic groups. He is a member of the board of directors of the California Newspaper Publishers Association.

LAW LENIENCY IS FACTOR IN JUVENILE DELINQUENCY SPREAD

The juvenile crime rate increased 26 per cent in San Diego county in 1963 over 1962 when it was up 23 per cent, Edward F. Kohl, sheriff's deputy with the sheriff's juvenile division

said. Kohl serves in the Lemon Grove-Spring Valley area on juvenile cases where he said the juvenile crime rate is the highest in the six juvenile districts which make up the unincorporated area of the county.

MEN'S CLUB TO HEAR VISTA'S MANAGER

Max Taylor, the manager of the newly incorporated city of Vista, will be speaker of the February 14 meeting of the Lemon Grove Men's Club.

Taylor is a noted speaker and Vista recently marked its first birthday as a city. Vista has no city tax as a result of incorporation.

He told the Lemon Grove Men's Club.

What's more, he said, laws are so lenient that there isn't likely to be much improvement in the picture soon.

First, second and third offenders are often taken to Juve-

nile Hall by officers after an offense has been charged. "By the time we get through making the report at the office and get out on the beat again the youngster is already out," he said.

Kohl said that the emancipation of the woman in the American home had contributed to much of the juvenile delinquency. "In Italy, where the father is the head of the house,

the juvenile delinquency rate is the lowest in the world," he said. "In America, where the woman has become the head of the household, the juvenile crime rate is high."

England brought her juvenile crime rate down by putting lawbreakers to work, Kohl explained. "They had them work from daylight to dark and the juvenile crime rate plummeted. Lawbreakers didn't like the penalty."

Adding to the statistics Kohl said 61 per cent of the total

Teenagers Here Charged With 16 Burglaries

Two Lemon Grove youths, 14 and 16 years old, were half of a team of four juveniles which ranged from oceanfront to back country burglarizing homes, garages and business places. Two of the boys are from east San Diego.

A squad of sheriff's deputies have been tracking the culprits for the past few weeks while they stole such items as dime store jewelry (in Lemon Grove) to a boat with an outboard motor (in Pt. Loma). The boat washed up after the youngsters

You Have A Right To Know

The brotherhood of the ink-stained wretches, those who earn their livelihood by imprinting type on newsprint and distributing the product as a newspaper, are meeting this week in the cult's state gala — the 1964 edition of the California Newspaper Publisher Association convention.

The meeting is being held at Coronado Feb. 6-9 and nearly 1,000 of these people will undertake the bettering of the craft.

One of the most vital facets of the profession is the protection of your right-to-know. It was guaranteed you in the Bill of Rights of the American Constitution.

So that you may know, the press battles continuously for its own right to know and its right to inform you. Too often, your sercants pretend that they do not know that they have a responsibility to the people through the columns of the press, and, as a result, work all types of gimmicks to dish up news slanted the way they want. One of the largest areas in which they can safely work is in the area of apathy.

Having laid the background, let us now quote US Chamber of Commerce President Edwin P. Neilan's remarks to the Rotary Club of Minneapolis. Neilan, chairman of the board of the Bank of the Delaware, Wilmington, argues that "the current crop of bureaucrats has brought the seduction-by-subsidy process to a peak of perfection "by managing the Press and silencing critics while it picks the taxpayer's pocket".

"The failure of the Press to rebel against the suppression

Until Feb. 22 they will offer their Girl Scout goodies enthusiastically for the following purpose:

1. To pay debt on Camp Davidson, near Julian.
2. To pay and maintain Camp Safari in Balboa Park (a camp for retarded children).
3. To build cabins at headquarters in Balboa Park (a much used campsite and gathering place for Girl Scouts).

All right Lemon Grove District — lets back the girls to the fullest degree. Let's help them top last year achievement of \$100,975 from the sale of Girl Scout cookies from the entire Council.

Stickers To Be Issued In L.G. Safety Lane

The automotive industry of Lemon Grove launches its first annual safety check lane locally next week.

It has the blessing of the California Highway Patrol and the Sheriff's Safety Division, and best of all, it's free!

The lane will be operated by local men Thursday, Friday and Saturday of next week at the parking area of the former Don Diego market, Broadway and Olive, Lemon Grove.

It will be operated from 10 a.m. to 2 p.m. daily except Saturday when it will be kept open until 4.

Those whose cars pass through the lane will be issued a sticker.

Owners of cars in need of adjustment or repair will be advised what the trouble is by the inspectors by way of a printed check list. No repair work will be done at the lane and auto-repairs may have the suggested repairs made or not, at their own discretion.

Pat Grace, chairman of the project which bears the title of Auto Industries Highway Safety Committee, said "the main thing we are doing is letting people

know we have these services in Lemon Grove and that we are willing to use our knowledge and experience for them.

Don Johns, chairman of the group's action committee, and chairman of the Lemon Grove Chamber of Commerce's Merchant's Division under whose auspices the project is being held, said "We also want to make people safety conscious. As members of the auto industry we should keep safety a matter of prime concern."

The California Highway Patrol assigned officers John Annis and Edward Widholm to the lane. They will be available for questions concerning the motor vehicle code. On display will be a car which will have been wrecked in an accident the same week of the project. They will also operate a mobile communications unit at the lane.

First in line will be Assemblyman Dick Donovan, who has authorized several safety Bills in the State Legislature.

On the committee, in addition to Grace, Johns and the CHP officers are Sheriff's Deputy Sgt. Wayne Bailey of the Sher-

iff's safety division, and R. T. Fields, assistant director of the S.D. County Traffic Safety Council. The County Council's check list will be used to check wipers, horn, mirrors, all window glass, tires, mufflers, lights, brakes, and steering mechanism.

Others on the committee are: John Dail, Jack Durham, Martin Heil, Asst. Chief Fred Dixon of the L.G. Fire Department and Pat Pathiakis.

Also: Molly Mouillesseaux, Clarence Scheide, Norman Flannery, Dave Rutter, Dick Canfield and Fire Chief Pappy Hensley.

LETTERS TO THE EDITOR

Dear Editor:

My husband and I were impressed by a poem we heard via air recently because it was so pertinent to the problems in the LM-SV school district.

The title is:

"PRAYER ON THE Q.T."

Now I sit me down to school Where praying is against the rule For this great nation under God Finds public mention of Him odd.

Any prayer a class recites Now violates the Bill of Rights Any time my head I bow Becomes a Federal matter now

Teach of stars or pole and equator But make no mention of their Creator.

Tell us of exports in Denmark and Sweden But not one word of what Eve did in Eden.

The law is specific, the law is precise Praying out loud is no longer nice Praying out loud in a public hall Upsets believers in nothing at all.

In silence alone can we meditate And if God should get the credit, great; This rule, however, has a gimmick in it; You've got to be finished in less than a minute.

So all I ask is a minute of quiet If I feel like praying, then maybe I'll try it. If not, O Lord, this plea I make Should I die in school, my soul you'll take.

Rosemary Putnam
3055 Crane st., L.G.

Dear Editor:

This letter is being written in view of recent developments concerning prayer in the La Mesa-Spring Valley School District where I have been a substitute teacher since March, 1962.

One of my first assignments was a sixth grade class where I was to teach from Monday noon through Friday. As the students were conducting the opening exercises on Tuesday morning in a manner that would have been a credit to any adult group, I decided we would close with the Lord's Prayer. When it was suggested I noticed they acted a little embarrassed and looked at each other out of the corners of their eyes. The Prayer was said without any where near the enthusiasm with which they had given the Flag Salute. When I remarked about it one boy said, "But you don't say it the way we do". I just took it for granted he was a Catholic because they don't say "For this is the kingdom, and the power, and the glory forever," as the Protestants do.

On Thursday morning the substitute clerk called to say that I had been released from that position because I had had the children say the Lord's Prayer. One parent had called and complained. When talking to the principal later I asked what kind of person could possibly object to that. He said it wasn't the 'kind of person'. It was against state law. I have since read that it wasn't state law. It was a directive made by Edmund G. Brown when he was attorney general that has assumed the status of law.

Since that time the United States Supreme Court has made it's well-known ruling. After attending the January 13, 1964 school board meeting and seeing how many parents enthusiastically supported Dr. Padfield and Mrs. Dewey I had the children in my next first grade class say the Lord's Prayer on a strictly voluntary basis. Very few knew it. The last fourth grade class said it still on a voluntary basis, said

and distortion of the news it purveys is attributable in part to apathy and, I am told, in part to fear. Not all the reporters are in the thrall of the Administration. But, I am told by newsmen that alertness on their part is frequently rewarded by reprisals.

"A well known correspondent for a great metropolitan newspaper was openly threatened with a complete review of his income tax returns by the attorney general of the United States. Reporters complain that news stories and columns exposing the situation in Washington have been spiked by editors in increasingly rising numbers.

"The pre-digested news story, based on material carefully prepared by government publicity men, has to a growing extent begun to replace original and hard-hitting reporting."

Neilan also alludes to what he calls "the self-censorship of much of the Washington press corps" and charges "the Press is expected merely to stand by and see no evil, hear no evil and report no evil," as the "grave train" passes by.

Publishers, we are sure, will rededicate themselves to safeguarding the public's right-to-know as its members convene this week in Coronado.

Junior, Go Support Your Papa

The State of California has supplied us with another Commandment.

Beginning this week the rule is "Juveniles, support thy father and thy mother!"

It was written by the 1963 Legislature and was made effective Monday of this week under provisions of the new, more liberal, Aid To Needy Children program.

Previously, the children's aid and the unemployment programs were separate but under the liberalized new welfare law, aid will continue to be given to ANC-families after the breadwinners' period of drawing unemployment pay has petered out.

Welfare aid to needy children was formerly given when the father was gone, leaving the youngsters with a mother who had insufficient means to adequately provide for their care. The newer concept is that the father needn't be missing only unemployed.

Thus, aid can be supplied to more families and the income will be increased in proportion to the couples' ability to produce more children.

It is safe to assume that some men need little encouragement to stay at home with the little woman if the alternative is the hardship of looking for a job.

It is also safe to say that the program will be popular and well utilized by the growing group now made eligible. Homer Detrich, County Welfare Director, says 1,200 new families will come under the program by June. The Welfare Department is hiring 76 new employees to administer the expanded program.

The money is coming from taxpayers, naturally. Three fourths of the money is state and federal funds. The rest will be added to the county's \$37 million welfare budget.

There were about 4,300 families with 13,000 children on the Aid To Needy Children program. The added 1,200 families with an estimated 3,500 children will require at least 25 per cent more funds since there will be more than 25 per cent more people in the program.

Never in the world's history, we think have there been so many children supporting so many parents — with somebody else's money.

It's a new philosophy and pretty hard to accept for some of us, but here it is and that is the way it is.

Richard Cook in Navy

PENCACOLA, FLA. — Navy Ensign Richard A. Cook, son of Mrs. Ruth A. Donald of 2355 Sweetwater ave., Spring Valley, is attending Pre-Flight School at the Naval Air Station here.

The six-week course covers indoctrination subjects as well as pre-flight orientation, since the flight cadets become commissioned officers. In addition, they learn what is required of an officer in the military service in regards to leadership, education, and loyalty.

L.G. PONY LEAGUE

REGISTRATION MONDAY

A general meeting and registration session is scheduled by the Lemon Grove Pony League for Monday at San Miguel school at 7:30 p.m. according to Red Swink.

The invitation is to all boys 13 and 14 years of age who want to play baseball. Every boy who registers will be assigned to a team and he'll play baseball, Swink said. "Too many youngsters think the league is too fast for them but we are going to play all registrants."

Swink also said that a special fund was being established for youngsters who want to play but cannot afford the registration costs. "We'll help kids who have a genuine financial hardship," he said.

The league will play on the new diamond at 6997 San Miguel.

The car was undergoing repair but the youngster was using the vehicle as a playhouse.

Talent and Practice Pay Off For Five Busy Helix Seniors

By Narda Zaccchino

From sunup to "Sundown" the "Trebletones" sing and enjoy it.

Averaging 14 hours of practice a week, the "Trebletones", five Helix High School senior girls, see that hard work paid off after their appearance on the television program "Sundown", last month.

The "Trebletones", Shirley Goggin, Marlene McMillan, Bonnie Rether, Dixie Mariner, and Diane Wyatt have sung at about 15 events this year including potluck dinners and Y-Teen Club installations. They have also sung at various churches.

Robert Rue, director of the Helix Highlander Choir, of which the girls are members, helps the girls in choosing their music. Some of the songs they've sung are "I Feel Pretty", "Hey Look Me Over", and "I Enjoy Being A Girl".

Bev and Diane, altos, joined the quintet for personal enjoyment. For Marlene and Bonnie, first sopranos, and Dixie, a mezzo, this experience will serve as a background in musical careers. Marlene plans to become a musical director.

The girls are active in many areas at Helix in addition to putting forth much of their time for the quintet. All of them are officers and senior members of the Choir. Dixie is president of the Girls League and is in student council and Y-Teens. Bev is also active in Girls League. Serving on the

Letter To The Editor

Dear Editor:

I would like to send a word of praise to our Spring Valley Fire Department and free ambulance service.

My husband, James A. Elless, passed away in route to the Naval Hospital Friday, Jan. 17. The men on the ambulance detail tried everything in their power to save him. These men are alert and quick to answer a call.

They are kind and considerate of the families. We in the Valley are very fortunate to have such a service.

Sincerely,
Mrs. James A. Elless

Dear Editor:

The Homeland Pastors Association should hold another meeting and consider the real issue! Evidently those pastors don't own their own homes which would drop one third in value if a Negro was to move in their neighborhood.

Evidently they don't have sons and daughters to go to school with the Negroes and grow up with the idea that it is all right to marry a black person because it was all right to go to school with them.

Since the pastors are supporting this thing, I wonder if they will enjoy embracing a black grandchild of theirs, huh?

Just a few thoughts, I have lots more.

Dear Editor:

In the course of renewing our fire insurance our insurance agent told us, believe it or not, that our annual cost for this coverage has gone down. He said this was because the Lemon Grove Fire Department has had such an excellent record that the underwriters have developed a new base for Lemon Grove.

I think the community is to be congratulated for putting together such a fine facility.

Dear Editor:

Why is President Johnson making an ostentatious but feeble attempt to "conserve" money by cutting federal defense spending? Could it be that he is making a bid for Conservative votes? Or could it be that he figures there are more votes in federal housing than there are in the San Diego Naval Station?

Note his recent shifting of money from our defense pocket to Weaver's federal housing pocket. Many of us think that if we don't keep up our defense, we won't need any houses.

HEART SUNDAY

Mrs. Robert E. Mason, Heart Sunday chairman entertained her 71 are chairmen at a Heart Sunday coffee in her home at 3368 Atlas st., S.D. recently.

Attending from the Spring Valley-Lemon Grove area were Mmes. W. Allen Moss, vice chairman, Emma Tomlinson, Solon Beatty, E. T. Phares, Fred D. Price, R. C. Miller, and John Hudson.

"We planned the coffee so that all the vice chairmen and area chairmen could become better acquainted, exchange ideas and complete final arrangements for Heart Sunday, Feb. 16," stated Mrs. Mason.

I sit, contentedly believing I'm supremely blessed. But now, I'm not so sure — The President says I'm poor!

He says I need three grand a year,
If I am not to starve;
And he'll provide the golden goose
The Bureaucrats will carve.
He'll also give us Medicare (I hope, with pretty nurses!) And all the money needed comes From other people's purses.
It smells like Welfare spoor; I'd rather just be poor.

The trouble is, the Presidency is held by millionaires Who can't believe that we, the poor,
Can run our own affairs.
And how can any millionaire Believe a Welfare plan Preserves the human dignity Within the soul of a man?
Resisting Lindens' lure, It's better to be poor.

Some of the former band members who enjoyed Mr. Cheatham's leadership might want to drop him a line. Editor.

Dear Editor:

Your excellent editorial "Try Hiring a Youngster" in the January 23rd issue was read with great interest. Thank you again for your efforts in bringing the need for youth employment before the public.

FOR PUBLIC ENJOYMENT — When Oroville Dam is completed and the reservoir behind it is filled, a great new recreation area will be opened to the public. The map shows the places especially planned for recreation around the 167-mile shoreline. Creation of new recreational areas is one of the objectives of the State Water Project.

Recreation is a Product Of State Water Program

by William E. Warne

This is the last of a series of six articles on California water development by the Director of the California State Department of Water Resources, who has administered resources development programs for state, federal and international government since 1935.

SACRAMENTO — Nothing better illustrates the rapidly changing attitudes toward water development than the esteem of recreation today as one of the proper purposes of constructing water projects.

Recreationists are being heard from as water users and both the California and national laws have been altered as a consequence.

In California irrigation, flood control, domestic water supply, and power moved over to accommodate recreation and fish and wildlife enhancement as newly arrived primary objectives.

A water user today may carry on his shoulder either the time honored shovel or water skis! The change in attitude however, has come so fast that it has left some unsolved problems in its wake. Chief among these, perhaps, is how to determine properly the costs allocable to recreation and wildlife enhancement while allocating the cost of multiple purpose projects.

In California our new law declares these to be public benefits of statewide interest. Clearly this intends that their costs should be borne by all, i.e. that

they should be financed by general funds raised by taxation. Opportunities to assess user fees against recreationists or license fees against concessioners serving the public do exist and, to a degree, are acceptable, but not to the extent of repaying the substantial investments in dams. In many instances, the nuisance value of user fees and the cost of collecting them continue to eliminate them from consideration.

In a state that is filling rapidly with people, few can doubt the wisdom of opening to full public enjoyment the expansive new lakes and their shores that are being provided by the State Water Project.

A practiced eye can see in the beautiful wooded canyons of the Feather River near Oroville an entrancing new lake rising as the reservoir fills. I am delighted with it already, and it won't even be born for two years.

When the reservoir has caught 3,500,000 acre-feet of water, the new lake will have a shore line of 167 miles and a surface of 15,000 acres. It will have long reaches extending like the fingers of a hand into famed and fabled canyons.

A strip of publicly owned land will be reserved above high water line, and a number of extensive public parks, developed for various types of recreational use, will dot its shores.

In this plan and those developed for the other major reservoirs, Castaic, Cedar Springs, Perris and Del Valle, is found but one expression in the state project of the regard for recreation.

The two other unique developments are apparent in the five upstream dams and reservoirs in Plumas County and in the westside San Joaquin Valley Project involving the development of various types of recreational units along the California Aqueduct and the new Westside Freeway, which for many miles will be side by side.

Of the five small dams, one, Frenchman, is completed, and the second, Antelope Valley, is nearly so, while the third, Grizzly Valley will be started in the spring of 1964.

Recreation and stream flow enhancement are to be the dominant contributions of these satellites of Oroville Dam. The Plumas Valley supervisors are confident that recreation will fill in for their diminishing lumber industry.

Down the bone-dry west side of the San Joaquin Valley the prospect of the California Aqueduct bringing some water to play in seems as exciting as that of stopping the overdraft on ground waters.

The difficult task of fairly allocating the costs of features of the State Water Project so that irrigation or domestic users do not pay for vacationers' fun is now before us. Even the formulae by which recreation benefits are determined have tended to change as interest in waters for fun has mounted.

The able staff of the Department of Water Resources has set this problem firmly on the road to a final solution.

SV Man Now in Alaska For Combat Exercise

ALASKA — Airman Second Class Marshall R. Neu, a member of the Air Force's Tactical Air Command, is getting first-hand experience with cold weather combat problems during Exercise Polar Siege now underway in Alaska.

Neu, son of Mr. and Mrs. R. V. Ray of 3704 S. Granada, Spring Valley, is an aircraft mechanic permanently assigned to George AFB, Calif. He will return there when the joint training maneuver for U. S. and Canadian Air Force and Army units is completed in mid-February.

Tactical Air Command fighters and reconnaissance jets and C-130 assault aircraft flew non-stop to Alaska to provide tactical aerial firepower, intelligence and supply support for ground forces in Polar Siege.

MRS. GOODE SPEAKS

Mrs. Portia Goode, member of the Governing Board of the Grossmont Union High School, pointed to the dedication of the District Board to the principle of providing an opportunity for education to all youth in its care, as she addressed the Parents of Academically Limited students at their installation dinner, Jan. 29.

Mrs. Goode spoke of the history of the district program, now centralized on the Grossmont campus and serving 140 pupils. She pointed to the promise for the future of the program in recent legislation concerned with training the educable retarded and expressed the hope that progress would continue.

PRO SOCCER LEAGUE SET FOR WEST COAST FAYS

The International Soccer League, sponsor of international pro soccer in the East during the past four years, crosses a continent this summer. Six of the regular ISL games are scheduled for the Los Angeles Coliseum.

Dan Tanna, president and general manager of the Golden Eagles Soccer Club, and an ISL vice-president, made the announcement Saturday afternoon at the opening of the soccer club's headquarters in Los Angeles.

S.D. GETS CHEVY ZONE

Paced by rapidly expanding West Coast markets, the "basic annual demand" for cars and trucks in the United States could reach ten million units by the end of this decade, Semon E. Knudsen, vice-president of General Motors and general manager of Chevrolet, predicted here recently.

Knudsen spoke at the luncheon meeting at the Hotel Del Coronado inaugurating Chevrolet's new zone headquarters operation in San Diego.

He said it was Chevrolet's conviction that this area will continue to expand as an automotive market that brought about the establishment of the new sales zone — the first such headquarters operation to be set up in San Diego by any auto manufacturer.

Chevrolet's new San Diego zone was created by separating the Los Angeles metropolitan area from the balance of Southern California.

The San Diego headquarters serves 64 Chevrolet dealers in California counties—San Diego, Imperial, Inyo, Kern, Riverside, San Bernardino, San Luis Obispo, Santa Barbara, Ventura and the south portion of Orange—plus the Las Vegas area in Nevada and part of Arizona.

Zone manager is Max A. Young, who was transferred to San Diego from a similar position in the Portland, Oregon zone.

Richard Craig Signs Up For Army Motor Course

Richard R. Craig, 18, son of Mr. and Mrs. George R. Craig, 3946 El Canto dr., Spring Valley, has enlisted in the U.S. Army, according to the Army's recruiting office at 8101 La Mesa Blvd., in La Mesa. Craig who graduated from Monte Vista High School last June, has chosen to be trained for the Army's motor transport. son for the start of the blaze. "The building was clean. There were no flammables and no electricity in it," Haas said Wednesday.

Rev. Butcher said a work crew of church members would be on hand to start the clean-up work Saturday. "Then we'll start building again," he said.

The building is completely insured and the church will not lose financially, Haas said. An unidentified neighbor saw the blaze and alerted the L.G. Fire Department. Rev. Butcher said "It's a sad blow but we'll follow the old Methodist precept, 'Rise up and build'."

Dorothy Digs in the Garden

It is still not too late to prune Rose bushes, if you have not already done so.

If they are allowed to grow without pruning, you will get only spindly growth and small blooms during the coming season.

Fuchsias and Hibiscus should not be pruned until all danger of frost is over. After pruning either Roses, Fuchsias or Hibiscus, spray the bushes and around the root area with an application of lime-sulphur oil emulsion to clean up insects and fungus and assure the plants of a good start.

A light application of plant food now will help to make better foliage and blooms later on in the season.

A public hearing on the fate of an 84-bed hospital for downtown La Mesa will be held this week on Thursday by the La Mesa Planning Commission.

A split-level country club style facility on the site of the historic Rose Hodge Manor, a 57-year-old mansion now being used as a Chinese restaurant at 8532 La Mesa Blvd. is planned. Medikinn International asked for the permit. C.R. Capelo is the present landowner. The hearing is continued from Jan. 16 when opponents, mostly residents and land-owners in the area objected.

Proponents have been requested to submit a precise plan. The restaurant will continue in operation.

More than 1,500 Republicans are to attend the luncheon at the El Cortez International Room, according to Gordon C. Luce, chairman of the Executive Committee of Republican Associates.

Republican Associates is arranging the affair in behalf of the Republican Party. Tickets are available at RA offices, 625 Home Tower, Republican Headquarters, 1250 Fifth ave., Goldwater Headquarters, 1047 Second ave., or through Republican club chairmen.

WATER BONDS TO GO ON BLOCK

The long awaited sale of the first \$100 million segment of State of California Water Bonds postponed last Aug. 7, will be held Feb. 18, State Treasurer Bert A. Betts announced.

Betts said he will open bids at 10 a.m. on that date in Room 130 of the State Capitol at Sacramento.

The bonds are to provide continued financing of the California Water Project which includes dam and aqueduct construction throughout the state for water conservation as well as power and flood control facilities.

Betts pointed out that half of the proceeds from the Feb. 18 sale of bonds will be used to pay off \$50 million in short-term bond anticipation notes which he sold last Nov. 21 to provide temporary financing for the water project. The remaining \$50 million will go into general project construction.

Washington, D.C., and its theme is "Strength American — Scout Can Make the Difference".

Feb. 7, is Uniform Day and scouts will wear their uniforms to school. Many will take part in special school programs.

Saturday is Anniversary Day and members will rededicate themselves to the ideals of scouting at 8:15 p.m., a tradition of more than half a century. Ordinarily this ceremony takes place in unit meetings, but if they do not meet tomorrow, scouts renew their pledge in members' homes or elsewhere. Individual members often take the Scout Oath before their parents.

Saturday scouts of Jewish faith will attend Scout Sabbath services.

On Sunday scouts will observe Boy Scout Sunday by wearing their uniforms as they accompany their parents to church.

Other county-wide activities during the week include City County Eagle Scout Day Tuesday, Feb. 11, and the annual Father and Son Order of the Arrow Banquet Saturday, Feb. 8.

chairman of the Press Appreciation dinner, held last week by the society at Town & Country hotel. Ben Matfin, CNPA general manager, spoke on "Press and Vision." Dr. Calvin Nicholl, of Lemon Grove, a past president of the society, hosted Mr. and Mrs. Max Goodwin at the affair.

Local Teachers Attend New York Coaches' Meeting

Sam Muscolino, Grossmont High School physical education teacher, has reported this week to the Grossmont Governing Board on the Forty-first Annual Meeting of the American Football Coaches Association in New York early in January.

Harry Johnson of Mt. Miguel High also attended the conference at the Hotel Commodore.

Muscolino reported the key note address was by Douglas MacArthur, who stressed the importance of athletics, both in scholastic and intramural, as part of the American educational system. He re-emphasized the recent declaration of the late President Kennedy that the educator developing athletic programs to strengthen the physical, moral, and general character building is extremely important. Muscolino said, "General MacArthur pointed out from experience in World War II and Korea the value of officers and men whose courage, physical stamina, and ability to work as a team were primarily a result of earlier athletic training."

In seminars which followed, coaches emphasized the following significant points relating to the place of football as part of an overall educational program.

1. Organized athletics, including football, with the emphasis on modern education for the full development of mind, body and character, must be considered an integral part of a school's academic program.

2. Football is a distillation of dedication, determination, competition, teamwork and fair play. While a coach may win games, he has a hollow victory if these qualities are missing from his players.

3. No team can meet with continued success without resolute and sustained effort on each player's part.

4. No individual, despite personal ability and performance, can succeed on the football field without the full support and cooperation of his teammates. The emphasis must be placed on developing an enlightened public which realizes that the role of the coach is, first, that of an educator, and only secondly, as the force behind a winning team.

Campster Owners Must Reregister For Exemptions

Campster owners eligible for exemption from registration and weight fees under a new law passed by the California Legislature must initiate reregistration procedure according to Republican Assemblyman Richard J. Donovan, author of the measure.

"If the campster owners don't take this action, the renewals mailed to them will reflect the weight fees that were charged under the old law and with the increase of 19% passed during the same session, this could mean a substantial savings in State fees," Donovan said.

The new law provides that campster owners with temporary units mounted on trucks will still pay commercial vehicle fees and weight fees on the truck but no weight fee for the campster. Permanently altered trucks which can be used only for human habitation have been redesignated as house cars and require passenger licenses.

Such units should be shown on the registration as HSCR and are subject to vehicle license fees based on assessed valuation of the camper body in addition to registration and vehicle license fee for the truck.

"Pickups with temporary campster attachments are classified as commercial vehicles, designated as RUCP on registration cards. They are subject to the unladen weight fees — without the camper body attached," Donovan said. "Campster owners must get their vehicles reregistered without the campsters attached, then take the pink slip and registration slip to the DMV office for reregistration. Failure to do this means that the old weights will be used as the basis for 1964 fees and taxes."

Owners with PUCP designations on their registration cards should apply immediately for correction so that proper fees will be established. Owners of house cars with HSCR shown on their registration cards need not apply for correction according to Donovan.

Richard Edwards Visits

Orient White on Duty

USS HORNET — Richard Edwards, seaman, USN, son of Bruce M. Edwards of 1541 Taft st., Lemon Grove, left the Japanese port of Kobe, recently aboard the carrier USS Hornet. The anti-submarine warfare support ship is in the Far West with the Seventh Fleet. The four-day visit to Kobe was made for rest and recreation after the ship completed operations with the fleet.

During the carrier's stay there, the crew hosted several thousand Japanese civilians during an open house aboard the carrier.

The Hornet is the nucleus of a hunter-killer group that has the unit of seeking out and tracking submarines in the Pacific. The group has the capability of destroying submarines at nearly any depth they are capable of reaching.

PUTTING ON THE DOG — Richard Mann of 6840 San Miguel ave., Lemon Grove, will parade his champion dog, Shamvac, a Rhodesian Ridgeback, at the Parade of Champions Saturday at 11 a.m. in the Fountain Court of the Mission Valley Center. The Rhodesian Ridgeback is the only breed with a ridge of hair growing backwards up its spine. The show is free and is a preview of the 34th annual winter all-breed dog show and obedience trials of the Silver Bay Kennel Club to be held Feb. 23 in the Electric Building, Balboa Park. More than 50 breeds are to be shown at the Mission Valley Center parade.
